

I am Cristian Paravano, I graduated the EMBA 2nd edition, I have been in charge of the management of medium and large organizations for more than twenty years. I would be honored to join the Mib Alumni community, as I have always been impressed by the great amount of activities performed to increase our School value. I am in contact with several Alumni and I have cooperated to give help and support with technical, professional advice to many students. Furthermore, I have also had the opportunity to make my own contribution as a teacher, thus widening and enriching my own personal, professional perspectives.

Now I would like to take the plunge and be an active member of the community. I have developed competence and beliefs across many years of management and I feel strongly committed to the “true sustainability credo” that I would be pleased to share with the community and possibly with other alumni from other business schools.

I believe in team-work and cooperation and I look forward to sharing ideas and objectives within the community in order to bring them into action and do great things together,

Cristian
