MY IDEAS FOR THE MIB TRIESTE ALUMNI ASSOCIATION

Social Network

We need to broaden and strengthen the professional network we have built thanks to MIB. I propose to accomplish this by building a MIB social network with our personal web page, possibly in association with a blog for sharing ideas and work opportunities.

Company visits

In my opinion periodic company visits can be a fruitful means of sharing best practices, discussing about business informally, knowing each other better and broadening our network.

Spreading business skills awareness

MIB Alumni may play their role as school testimonials, aiming to increase labour market awareness of what a business school is and how Alumni can help companies grow and excel. I perceive a true opportunity there to make our CVs stand out.

Thank you
