1. Reunion 2024: organisational updates

The proposed reunion theme is “leadership in change/charge”. The potential Key Note speakers have been contacted: the Board is waiting for an answer. Among the potential panel speakers, 3 companies belonging to the MIB consortium could be involved. On May 16th an online meeting with MIB School stakeholders is planned to discuss further the topic details. Focus for the coming weeks is to define the speakers to confirm the final agenda to be shared with the stakeholders. Human Safety Net provided the economical offer to cover the reception and security services, the catering and the room rental. The proposal is under evaluation in agreement with MIB School. No additional news on the side events to be organized on Sunday 22nd Sept, except that the restaurant for the Saturday dinner has been booked. Ideally, in addition to the visit of the Human Safety Net interactive exhibition, a sport event and a guided tour of the city should be organized. The Reunion has already been cited in a couple of newsletters and communication sent by MIB School and 4 LinkedIn posts have been posted to solicit alumni engagement about it. Another LinkedIn message with the link for pre-book the event will be posted in 1 or 2 weeks max. The marketing team of MIB School will take care about the pre-booking form and registration collection.

2. Local Events: updates

Within about one month the following local events has been run:

3. Flooding in Rio Grande do Sul: request for help

The board has briefly discussed about the emergency situation in Rio Grande do Sul, after a call for help received by Brazilian Origini alumnis. Due to the fact that the Association is not able to collect and manage money, the possibility to help is based on the rebound of activities that MIB School eventually put in place to support the emergency situation.

Having nothing else to discuss, the meetings ended at 23:05 CET.
