Meeting starts at 21:09 CET

Proposed Meeting Agenda:

1. Update on communication plan on
2. Update on the networking activities on field
3. Update reunion 2025
4. Statute of the association

1. Update on Communication program

Editorial communication plan is ready to be shared with Valentina Savino for feedback. In particular, to promote the reunion 2025, we would like to include testimonials from past board members. Another topic is to give visibility to the ambassador networks through the program “meet our Ambassador”. The first LinkedIn post has been issued and a second one is planned. Last months, we focused on the promotion of the local networking event. In February, there will be 2 LinkedIn posts on international days.

2. Update on the networking activities on field

In the organization of the local networking event, we need to consider the approval from School for any payment.

Next MIB Talk will be in Trieste 11th on Artificial Intelligence in the database management use and its implication. Under evaluation an event in Pordenone, Treviso and Milano.

A new call to action for the Ambassadors should be organized to stimulate the organization of events in “new” territory.

To evaluate the possibility to organize webinars

3. Update reunion 2025

Following the feedback from MIB School, the candidate city for the next reunion should be Milan. There are some locations under investigation, the availability of them is still to be confirmed.

The dates identified for the reunion could be October 18th or 25th.

The topic proposed is “Humanity”. In preparation for the next board meeting, each member should bring ideas on how to build 4 streams to be developed separately.

4. Statute of the Association

As it is, the Alumni association is not enabling the independent management of activities that involve the collection funds and expenses. To be further discussed the needs of the association for the mid-long term impact.

The meetings ended at 22:42 CET.
