

ALUMNI GOVERNING COUNCIL PROGRAM

From Alumni Network to Global Business Community

My vision is to help transform the MIB Alumni Association into an increasingly **active, international and value-driven community**, where Alumni do not simply stay connected to MIB, but actively create opportunities for one another.

I would focus my contribution on three main pillars:

1. CONNECT – Build stronger international and professional connections

Create **MIB Global Business Circles** organised around industries, countries and professional interests, enabling Alumni to exchange knowledge, contacts, opportunities and market insights on an ongoing basis.

2. GROW – Connect generations and share knowledge

Develop an **Alumni Mentoring & Reverse Mentoring programme**, connecting experienced Alumni with younger professionals while creating opportunities for younger generations to contribute their expertise in areas such as AI, technology, innovation and new business models.

3. EXPAND – Turn our global network into a business asset

Launch an **MIB International Business Exchange**, leveraging the worldwide Alumni community to support members entering new markets, finding business partners, developing international relationships and accessing local knowledge through fellow Alumni.

Beyond these initiatives, I would like to contribute my experience in **international business development, networking, events, digital transformation and AI**, helping create practical opportunities for Alumni to meet, learn, collaborate and do business together.

My objective is simple: make being an MIB alumnus increasingly valuable, not only because of the relationships we built at MIB, but because of the opportunities we can create for each other afterwards.

Connect. Grow. Expand. Give Back.

This is the Alumni community I would like to help build.
