

CONNECTING MIB BEYOND BORDERS

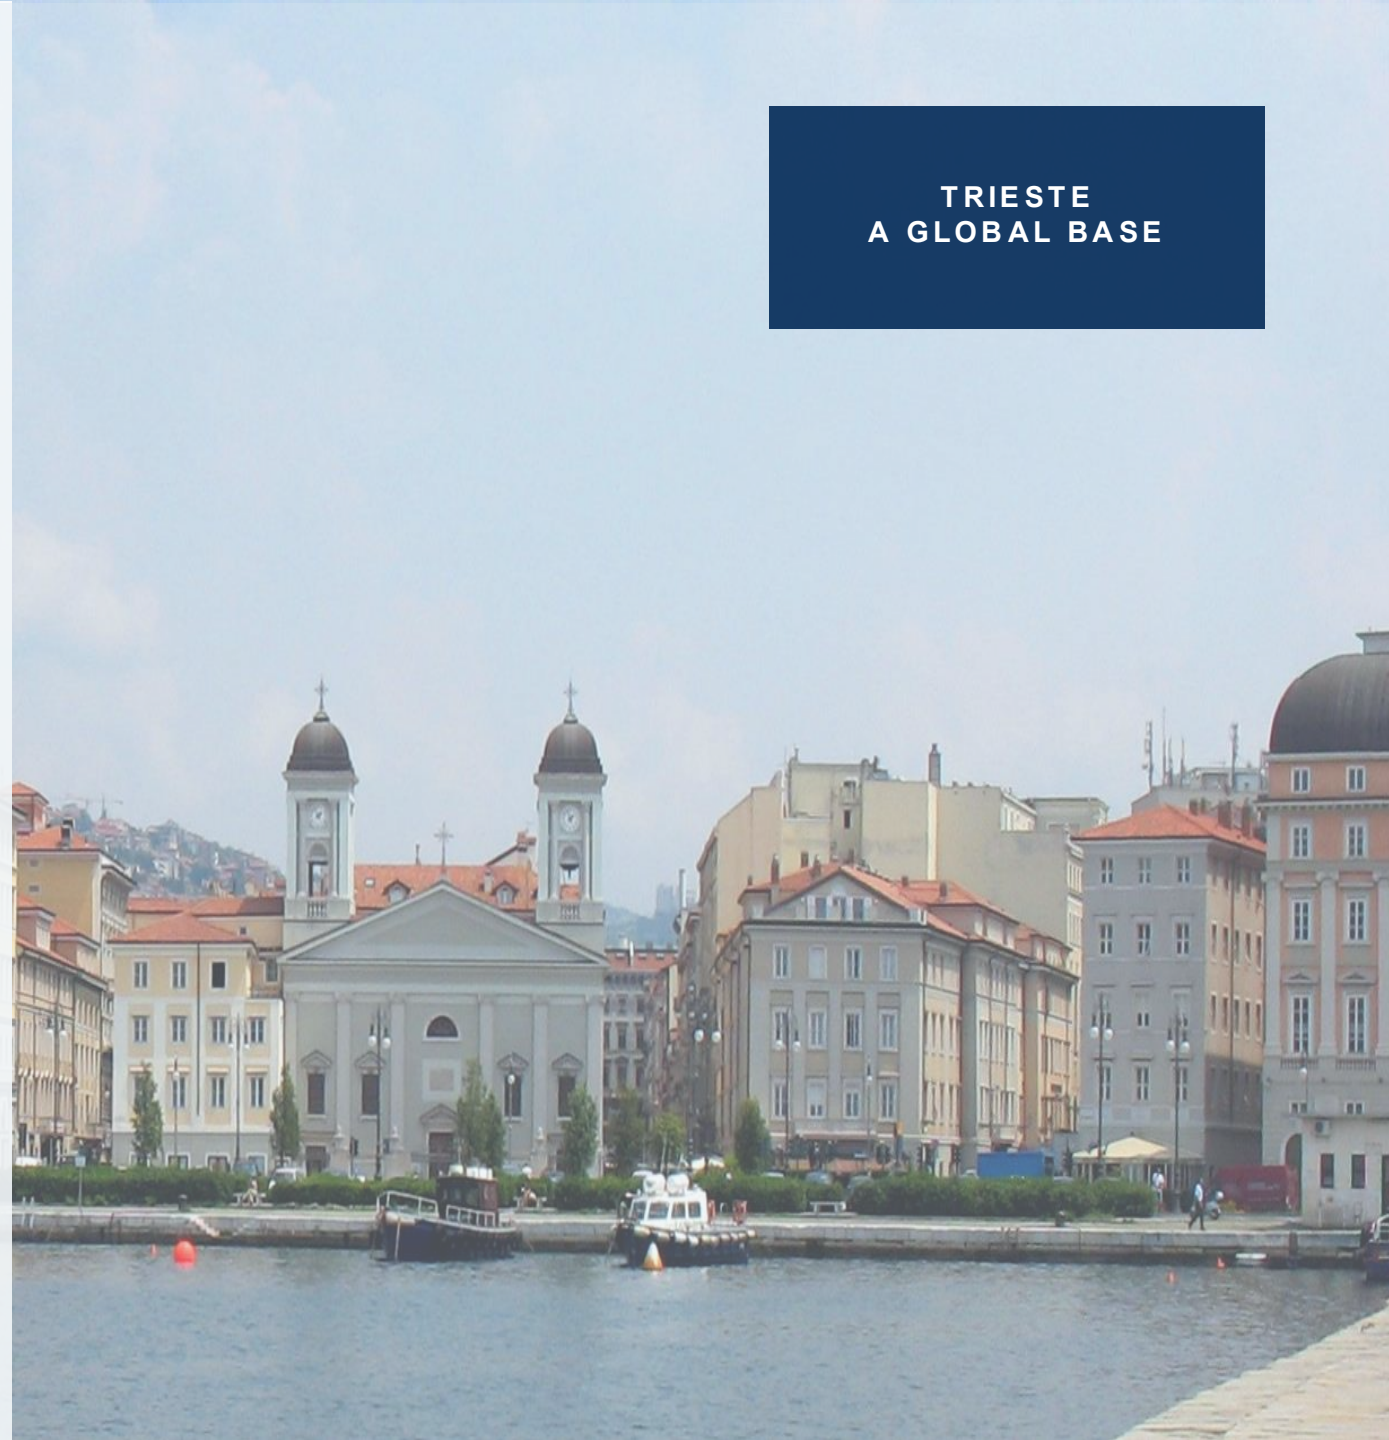

Turning MIB's international community into a more connected professional community during the MBA and after graduation.

MIB ALUMNI ASSOCIATION GOVERNING COUNCIL 2026–2029

TRIESTE
A GLOBAL BASE

A Global Community. More Active Professional Connections.

MIB already has an international community of students, alumni, faculty and corporate partners. The opportunity is to connect these groups more systematically so the Alumni Association can create professional value in Trieste, across Italy and internationally.

PROFESSIONAL CONNECTIONS

Alumni share industry knowledge, introductions and career insight.

CORPORATE ACCESS

Alumni help establish company visits, speakers, projects and partnerships.

GLOBAL ENGAGEMENT

International graduates remain active across countries and MBA generations.

Building a Stronger, More Connected MIB Community

Three focused initiatives that create lasting value for students, alumni, companies and MIB.

01

Global Corporate Connections

Leverage alumni working within multinational organizations to open doors for company visits, corporate presentations, professional introductions and potential partnerships, expanding MIB's reach beyond Trieste and Italy.

02

Alumni-to-Student Professional Network

Create structured opportunities for working alumni to share industry knowledge, provide career guidance, facilitate company introductions and connect current students with professional networks.

03

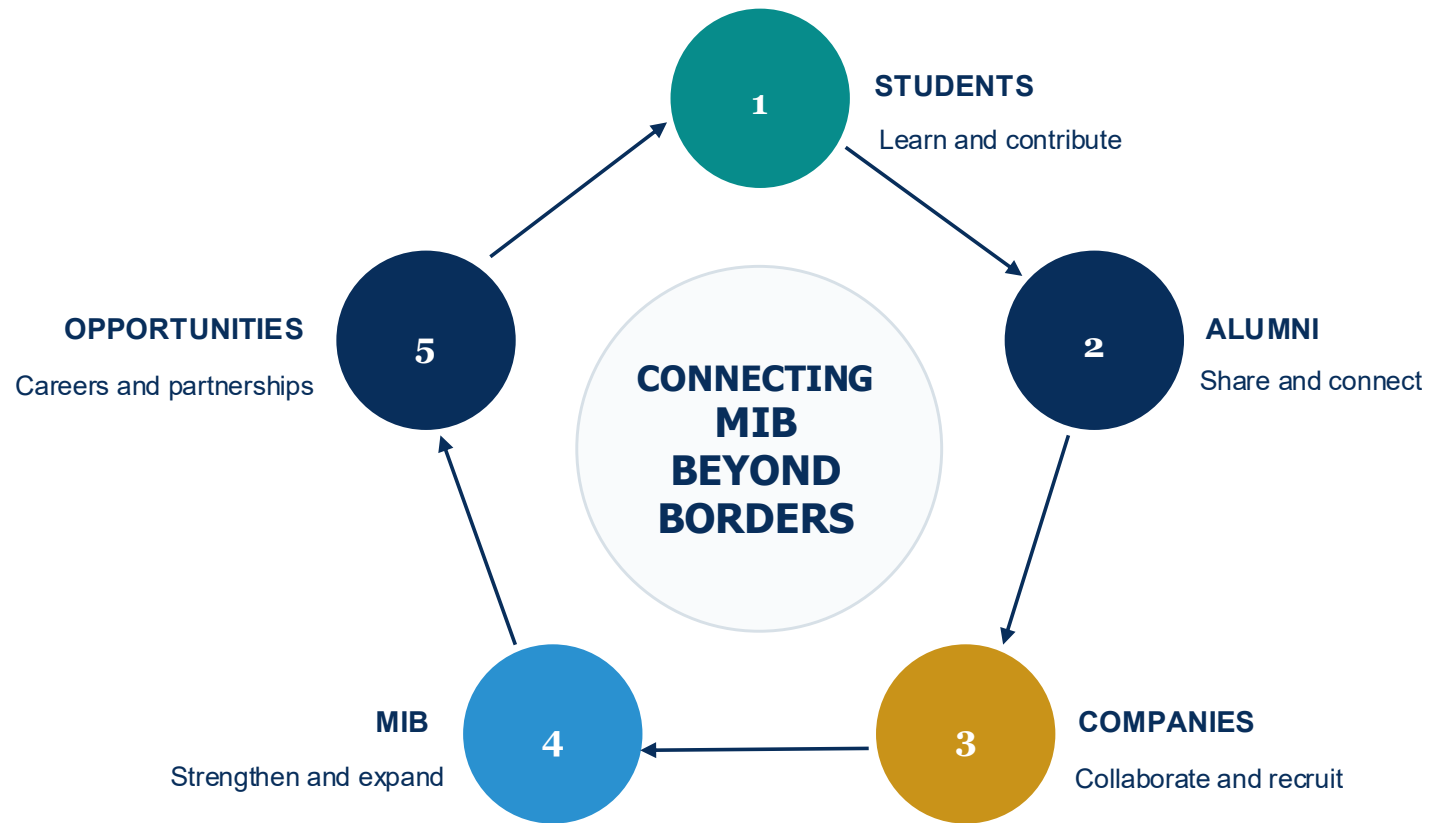

International Alumni Engagement

Keep international alumni actively connected to MIB across countries and MBA generations, creating a growing network in which today's students become tomorrow's mentors, corporate contacts and ambassadors.

People Create Opportunities

A stronger professional alumni network creates value for everyone.

WHAT THE CIRCLE DELIVERS

STUDENTS	Career insight, company exposure and professional access.
ALUMNI	Meaningful engagement and connections across industries and countries.
COMPANIES	Direct contact with international talent and the MIB community.
MIB	Broader corporate relationships and a more active global network.
